

Klever Ice Melt

Industrial Tough... Environmentally Friendly

**SPRAY AND GO
BEFORE
THE SNOW**

Klever Ice Melt is the answer to tough winter conditions. Prevent snow and ice from sticking to the ground by coating concrete and paved surfaces.

Our advanced formula is 70% less corrosive than standard granular/rock salts, is odorless and colorless, will not be displaced by shovels or snow plows... and is more cost effective than granular products.

Imagine a system that will not harm vegetation, will not track inside, is cost effective and will change the way you budget for your winter season... well, imagine no more... your winter system is here!

Benefits

Allows a fixed budget, regardless of weather

Specially formulated active melting barrier

Stays where it is applied

Clear and odorless

Reduce falling hazards for customers and employees

Melts ice to -25F

Does not harm vegetation or pets

No white residue... no tracking indoors

Environmentally Safer Less Corrosive More Cost Efficient
